

SmartSolve

Project-Based Consulting

SmartSolve by CampusLogic delivers critical project resources necessary for regulatory compliance support, file review and repair for audit preparation, regulatory compliance training and process improvement.

CampusLogic understands the importance of solving problems and providing measurable results. Our SmartSolve consulting services are designed to improve the quality, efficiency and regulatory compliance of your student financial services.

The SmartSolve Fundamentals

SmartSolve by CampusLogic combines experienced project resources and in-depth Title IV knowledge. This combination is critical to identifying and solving unique issues facing higher education institutions. We work with you to identify root cause, develop and evaluate proposed solutions, implement improved processes and measure results. Our student financial services experts do everything from reviewing student files to evaluating current policies and procedures to identify areas of non-compliance and/or inefficiencies. We are experts in collecting and providing the required information to make informed decisions.

When is SmartSolve right for you?

SmartSolve is ideal for colleges that want to improve their student financial services operations. We conduct people, process and technology assessments, we analyze your long term growth capability and identify areas of operational risk that impact compliance and your ability to meet your goals. Do you want to?

- Improve efficiency and reduce costs by centralizing multiple campus operations
 - Increase expertise for Federal Direct Student Loan processing
 - Improve student service and packaging cycle times
 - Integrate an online/distance division to complement ground campuses
 - Decrease processing backlogs
 - Reduce regulatory risk
 - Increase cash flow
 - Ease volume spike pain
 - Improve financial aid cash flow
 - Reduce document processing cycle time
