

# SmartSource

---

## Long-Term Solutions

SmartSource by CampusLogic includes ongoing file review, loan certification, disbursement processing, Title IV accounting, and regulatory reporting and compliance.

---

CampusLogic clients value the freedom to focus on their business by outsourcing the day-to-day management of financial aid processing to us. Our SmartSource services allow you to focus on maximizing enrollments and providing a quality education to your students.

---

## The SmartSource Fundamentals

CampusLogic understands that providing superior student financial services can be a challenge for colleges and universities—especially when institutions are continually asked to provide more services with fewer internal resources. SmartSource by CampusLogic helps higher education institutions achieve their goals by providing student financial aid counseling, online self-service tools, application processing, disbursement of funds and more. We use imaging and workflow technology, best practices and deep subject matter expertise to improve the quality of student services, streamline processes, reduce costs, enhance overall productivity and reduce potential regulatory non-compliance risk.

---

## When is SmartSource right for you?

SmartSource is ideal for colleges and universities that want to dramatically improve their financial aid and student accounts operations. We increase process visibility, increase productivity and decrease regulatory compliance risk while you focus on growing enrollments and improving the student experience. We are experts in:

- Centralizing multiple campus operations into a single delivery model
  - Processing FFELP and Federal Direct Student Loans
  - Improving student service and packaging cycle times
  - Integrating an online/distance division to complement ground campuses
  - Decreasing processing backlogs and increasing cash flow
  - Reducing regulatory risk
-
