

SmartStaff

On-Demand Resources

SmartStaff by CampusLogic includes interim Director of Financial Aid, Director of Student Accounts, Financial Aid Officers and Financial Aid Processors.

CampusLogic clients know that having the right people at the right time makes all the difference. Our SmartStaff services provide anytime, anywhere access to experienced student financial services resources at a moment's notice without a long-term commitment.

The SmartStaff Fundamentals

SmartStaff by CampusLogic provides experienced resources to student financial services to assist in managing volume spikes, unexpected short term staffing requirements and ongoing operations. Our SmartStaff team will travel to your school and provide on-site assistance on a short-term basis to help you achieve your goals.

We have highly skilled financial aid and student accounts resources who can step in to manage a process or assist with processing with little ramp-up time. Experts in most student services technology, Title IV compliance and process management workflow, our SmartStaff resources will maximize your cash flow while your employees focus on strategic priorities rather than administrative tasks.

When is SmartStaff right for you?

SmartStaff is perfect for colleges and universities facing short term staffing challenges that want to immediately improve their financial aid and student accounts operations during high volume times or unexpected staffing challenges. We provide experienced efficient resources when you need them. Our on-demand resources help you:

- Improve student service and packaging cycle times
 - Decrease processing backlogs
 - Reduce regulatory risk
 - Increase cash flow
 - Ease volume spike pain
 - Improve financial aid cash flow
-

Pricing
